Overview

The VOX SOUNDBOX mini is a stereo multi-purpose amplifier. The proprietary sound technology developed along with VOX's guitar amps has now been packed into a compact aluminum body and can run on batteries, so it can be used anywhere.

11 amplifier settings

The amp input section of the VOX SOUNDBOX mini offers 11 amplifier models to select from so you can quickly dial in your tone. Besides a clean sound for electric guitar, you can enjoy amps suitable for hard rock, modeling amps for bass or acoustic guitar and you can choose from a wide range of sound options.

A tuner ('E' note) is built in

The built in "E" Note tuner function offers a quick and painless way to check your tuning at a glance without having to unplug!

Expand your sound

KORG's proprietary and revolutionary virtual surround technology generates a unique and personal three dimensional acoustic space using just the front stereo speakers! The actual playback system is acoustically analyzed, and the appropriate optimizations are applied to obtain the maximum Acoustage effect.

Built-in effects so you can connect your guitar & enjoy playing right away!

The VOX SOUNDBOX mini provides all of the essential effects that a guitarist needs, including chorus, flanger, reverb and more.

Center Cancel effect

The Center Cancel effect allows you to attenuate the volume of a guitar solo or vocal part so that you can play along with your favorite bands.

What is Acoustage?

(Virtual Surround Technology by KORG)

The built-in Acoustage Virtual Sound Technology delivers a unique and immersive listening experience, serving up a high quality three dimensional listening experience at the push of a button.

Instrument, mic, & portable audio player can be used simultaneously

The versatile VOX SOUNDBOX mini can be used to listen to music from your portable audio player, plus it can be used as a personal amplifier for your instrument and microphone. All of these features can be used at the same time, offering a comprehensive practice solution.

Conveniently portable

You can use the VOX SOUNDBOX mini anywhere that inspiration strikes. It can be powered using an AC Adapter and it can also run for approximately 7 hours on battery power, providing an easy way to take your music along with you almost anywhere.
